This is an important exercise to work on time management of personal responsibility in how "we" are using our time. This is how the grading will work:

1 day late = - 10% of total grade

2 days late = - 25% of total grade

3 days late = - 50% of total grade

4 or more days late = 0

(Remember, the computer date stamps everything, so I can see the date your folder was copied into the Shared Folder)
