

Project 04

5 page web page

Your next assignment is to create a "mini-website" or at least 5 pages. The pages need to be neat and organized (model yours after "real" websites). **Here are the requirements:**

- 5 webpages
- Links on each page that connects to each page (page 1 has a working link to page 2,3,4, and 5 --- page 2 has a working link to page 1, 3, 4, and 5 --- etc.)
- 2 images on each page (keep them to a "normal" size)
 - 1 = just an image
 - 1 = an image that links to a different website
- Color or image background on every page (that isn't a distraction)
- 1 text link on each page that connects to a "real" website (minimum - you can have more)
- Fonts: at least 5 different font styles, sizes, and colors
- At least 4 line break tags on each page
- At least 2 paragraph tags on each page
- 1 unordered list (on any page)
- 1 ordered list (on any page)
- 3 block text elements (1 on 3 different pages)
- 2 tables total (can be on same page or different pages) table size 2 rows x 3 columns
- At least 50 words on each page

Extra credit

- Up to 5 extra credit points for using comments
